

# Capability Statement

Eric Miller, Founder/CEO  
[eric@cr-access-llc.com](mailto:eric@cr-access-llc.com)  
(910) 273-7845: Office

## Core Competencies

CR Access provides a metrics-based approach to long term solution design and development. Our project and program management team comes from the Department of Defense, Intelligence Community and the commercial space

- Program and project management
- Emergency/ disaster response and management
- Requirements development
- Training and exercise design, development execution and assessment
- Test and evaluation of emerging technology
- System architecture and process optimization
- Business development and capture
- Advanced car control training

## Differentiators

- Over 100 years of combined operational experience in the special operations and intelligence community
- Academic credentials to ensure results are enduring and metrics-based – long term solutions as opposed to a shopping list
- Access to community of interest across government for inclusion of best practices and a interagency approach
- Metrics development and alignment with organizational missions for processes and procedures that enable and enhance mission readiness
- Professional and relevant response available where and when needed

## Past Performance
